

Why should cryptographers care about certification?

Dan Bogdanov, PhD

Chief Scientific Officer, Cybernetica

Head of the Standing Committee on Cybersecurity, Academy of Sciences

Welcome to Future Cryptography!

- The goal of the Future Cryptography conference is to promote advances in cryptography that can help remove trust assumptions in systems.
- The conference is co-organised by the Cyber-Security Excellence Hub in Estonia and South Moravia (European Commission CHES project, grant agreement 101087529), Standing Committee of Cybersecurity of the Estonian Academy of Sciences and Cybernetica.

Certification is the ultimate peer review
